# SPIN-OFF DOCTORS

Why didn't EriTV report about "the assassination attempt on General Sebhat Ephrem, Minister of Energy and Mining of Eritrea?" Where is the evidence of "the shooting on the Minister"? Where is the blood? Where is the patient?

If there is no official news, no evidence, no blood or no patient, then everything amounts to smoke and mirrors. This is a covert operation played by the veteran spin-off doctor Isayas Afewerki in order to fool and spook the Eritrean public.

December 20, 2018

Isayas pulled a giant media spin-off through his fabrication machinery **03** and his spies who lurk on the Facebook. The spin-off portrays a painting of a hoax on the imaginary wall, "An assassination attempt on General Sebhat Ephrem".

December 21

VOA Tigrigna Language Service reported the following news: “ጅነራል ስብሐት ኤፍረም ናብ ገዝኡ እናኸደ ኸሎ ብሰብ ከምዝተሃርመ እመናት ምንጭታት ይገልጹ’ለዉ.” “General Sebhat Ephrem was shot by a person while he was going to his home, according reliable news”.

## December 23

Estifanos Afeworki, Ambassador of the State of Eritrea to Japan tweeted, “I wish Sibhat a quick recovery and condemn this shameful action of cowardice.”

Tv Sened Eritra, 23 Dec 2018 Interview Mr. Mesfin Hagos Part I

This is the first question in the interview.

*Antonio Tesfai:* “In the first place I would like to ask one question to Ato Mesfun Hagos. Recently in our nation, news is scattering regarding the existence of danger . . . . There is information that a danger has been carried out on Ato Sebhat Ephrem . . . . What’s your input regarding this event?”

*Mesfin Hagos:* “I don’t have solid information . . . . Basically, the only known information is an assassination attempt has been carried out on General Sebhat . . . . however the assassination attempt didn’t prevail . . . .”

**03** and Hagerawi Dhnet spies on the Facebook . . . VOA Tigrigna programmers . . . . Ambassador to Japan, Estifanos Afeworki . . . Mr. Mesfin Hagos as well other pro-PFDJ Youtubers have been geared up in unison in the spin-off.

## PAST SPIN-OFFS

Dear Eritreans, for decades, the notorious spin-off doctor Isayas has been pulling several spin-offs.

### FEBRUARY 1982, “1ST COMMANDO SPIN-OFF”

Isayas kicked the 1st spin-off by claiming, “EPLF commandos destroyed 12 Ethiopian aircrafts inside Asmara international airport”. He created a modest drama out of it. We believed the story as true.

### MAY 1984, “2ND COMMANDO SPIN-OFF”

The spin-off doctor kicked advanced version, “33 Ethiopian jet fighters destroyed by EPLF Commandos in 18 Minutes inside Asmara international airport”. In this version, the doc created biggest drama out of it. With the EPLF comedian Habte Gheresus Shawl, a spectacular drama “Commando, Commando . . . Derm Endo” was created to enhance the false feed. We were “Commandoized” by the feed.

### JANUARY 1986, “3RD COMMANDO SPIN-OFF”

In January 1986, the doc kicked 3rd spin-off, “40 Ethiopian jet fighters destroyed by Commandos”. We frenzied on this, third Commandoized feed. Not enough yet!

**JUNE 1998, "PILOT SPIN-OFF"**

**The doc kicked yet another special spin-off, "Ethiopian MIG-23 was shot down by anti-aircraft units of Eritrean Defence Force while the MIG was bombing Asmara international airport and its pilot Shaleqa Bezabh Petros was captured after he parachuted to the ground from his downed jet fighter. Shaleqa Bezabh was captured for the second time in Eritrea."**

**Mindful, the spin-off doctor prescribed the finest drama for the "capture of Shaleqa".**

**Isayas's master spy inside Ethiopian Air force, Shaleqa Bezabh Petros.  
Anti-aircraft units of EDF never shot him down.**

The doc ordered special tour of “the twice captured Shaleqa” on the streets of Asmara as a bravado of EDF.

### **SPY INSIDE ETHIOPIAN AIR FORCE**

Indeed Shaleqa Bezabh Petros was Isayas’s master spy inside Ethiopian Air force community. He was never captured twice on the ground of Eritrea.

On June 6, 1998, Shaleqa took off his MIG-18 with serial number #1083 from Mekelle international airport and secretly landed his MIG-18 on the runway of Asmara international airport. Shaleqa’s real jet fighter was MIG-18 not MIG-23 as the spin-off papers acknowledged.

A grand drama followed as if Shaleqa was shot down from the air by EDF. We absolutely believed “the capture” as genuine. Perhaps, we honked, we cheered, we hoorayed, we jumped, we shouted, we raised our arms when the red Japanese sedan Datsun appeared on our streets with “the twice captured Shaleqa” on the back seat during the fascinating tour on the streets of Asmara. This proves how great spin-off doctor is Isayas. He is next to none.

## **ASSASSINATION ATTEMPT ON THE GENERAL**

**“Assassination attempt on General Sebhat Ephrem” is a hot spin-off let ripped by the conducting hands of the maestro Isayas Afewerki. Before signing out I am kindly asking **03** to prove that I am completely wrong. Guys, please make it your day.**

**Year 2018 would be remembered as THE GREATEST SPIN-OFF YEAR in our history. Happy New Year. Please celebrate warmly the spin-off.**
